### SUMMER COMFORT FOR THE

STAY - AT - HOMES

appointments to many of us who cannot join the general summer exodus from town, but who, for one reason or another, must stay in our houses or apartments during the warm months.

We can't all go to the mountains or seashore, but, by a careful and judicious expenditure, every woman can make a summer atmosphere in her own home if she chooses.

Rugs, heavy curtains, and draperies can be put carefully away, and in their place can be substituted a whole new set of things at a surprisingly low cost. There is an infinite number of fibre rugs in the market to fit any size space; there are dainty fresh, cotton curtain materials in charming designs; and as for cretonnes for furniture coverings, their beauty and variety are bewildering.

Just read carefully through the housefurnishing advertisements in THE BULLETIN and calculate for yourself how little these summer comforts would actually cost.

A. F. G. asks: "What should I do for mouth corners?" Try a wash totion made by dissolving 1 oz powdered saxolite in ½-pint witch hazet. This is immediately effective in any wrinkled condition. Use daily for a while and results will astonish you.

Anise: A simple way to keep your skin smooth, soft and white is to apply ordinary mercolized wax before retiring, washing it off in the morning. This keeps the face free from the particles of lifeless cuticle which constantly appear. The wax absorbs these worn-out particles, so the younger, fresher, healthier skin is always in view. An ounce of mercolized wax may be had at small cost at any drug store. Use like cold cream.
